## **EMT JOB DESCRIPTION**

### **JOB SUMMARY:**

Provide appropriate, efficient and timely pre-hospital basic life support care and transportation of the sick and injured in accordance with local Madison County, Montana State, National and Ruby Valley EMS standards of practice.

### **EQUIPMENT:**

Ambulance; stretcher; folding stretcher; scoop stretcher; long and short spine boards and KED; spinal immobilization equipment; radios and computerized communications equipment (IPad, iPhone); pager; splinting devices; suction devices; bandaging materials; oxygen bottles and tubing; basic airway management devices; intravenous fluid therapy equipment; fire extinguisher; simple extrication devices; simple mechanics tools; pneumatic anti-shock garment; blood pressure cuff and stethoscope; patient restraints; simple traction devices; other medical and related equipment items not specifically listed may be added as new items are introduced.

### **DUTIES AND RESPONSIBILITIES:**

Except as specifically noted, the following functions are considered essential to this position.

- Conducts a careful examination of the patient for signs and symptoms of illness/injury and assists other medical personnel as necessary.
- Administers prompt and efficient basic life support care within the limits of licensure or certification and in accordance with approved protocols prior to and during transport.
- Provides careful handling of the patient to and from the ambulance.
- Provides safe and efficient transport of the patient in the ambulance to the medical facility.
- Provides a safe and efficient transfer of patient and patient care information to the receiving personnel at the destination.
- Documents all aspects of patient condition and treatment on EMS run reports. Obtains and records non-medical patient information as required. Completes other patient documentation and forms as required.
- Conducts regular unit inventory and equipment testing to ensure all equipment for which the EMT-Basic is responsible is present, clean and in proper working order.

- Upon completion of transport, responsible for all assigned duties which will place the ambulance and equipment back in service.
- Responsible for full knowledge of the ambulance's basic life support equipment and its proper use at all times.
- Documents and reports all needed repairs to the proper maintenance departments (electronic or mechanical) as well as to supervisors and other ambulance personnel as required.
- In the absence of other qualified personnel, responsible for the use of basic extrication tools and procedures to gain access to the patient if necessary.
- In the absence of other qualified personnel, responsible for controlling the patient's surroundings in such a way as to minimize further danger and control the actions of bystanders.
- In both the emergency and non-emergency setting, operates / drives the ambulance in a safe and efficient manner, following company driving guidelines, so the safety or condition of the occupants are not compromised.
- Follows all FCC regulations when communicating via electronic communications equipment.
- Attends all mandatory meetings as scheduled.
- Completes assigned station and station grounds duties.
- Orders supplies and equipment from Supervisor to replenish station and ambulance inventories as needed.
- Completes assigned ambulance duties (i.e., washing, waxing, interior and exterior cleaning, etc.) as required.
- Completes all required company reports and logs and when necessary provides other ambulance and supervisory personnel with the information.
- Must meet and fulfill the qualifications, requirements, functions and responsibilities of the Emergency Medical Technician – Basic job descriptions.
- When assigned in Emergency Department – performs the following duties:
  - Assist doctors, nurses and other medical personnel with providing the best quality emergency care possible to each and every patient.
  - Monitor, record, and report vital signs.
  - Fit patients for splints and other devices.
  - Provide instruments to doctors and nurses as they perform procedures on patients.
  - Assist with the safe movement of patients, such as from hospital bed to wheelchair, when necessary.
  - Insert peripheral IV catheters. (with endorsement)
  - Assist in restocking supplies, removing waste materials, sanitizing hospital rooms and tools, and delivering meals.
  - Perform basic CPR
  - Perform EKG tests.
  - Assist with documentation.
  - Dispose of contaminated supplies.

- Other jobs as assigned assisting in patient care and flow.
- Performs other duties as assigned.

These duties, responsibilities, requirements, and conditions are not intended to be all inclusive and may be expanded to include other duties, responsibilities, requirements and conditions.
